

# Support George Papayannis. Donate to the MOS.

*Climbing the stairs at Harvard Stadium is one of the many ways I train.*

I'm an educator in the Boston Public Schools and for ten years I've donated to the Museum of Science. Help me support the Museum by donating to my climb of Mount Washington today.

The Museum of Science has helped me shape my teaching and leadership practices. Their educators have taught me how to connect diverse audiences to complex topics in simple ways, and their fundraising staff and board members have taught me how to be an effective leader in a world-class educational institution.

On Sunday, July 8, 2018, I will summit Mount Washington twice – a 13-hour hike! – to raise Annual Fund dollars for the Museum. It's called a double challenge, and I did it last year for the first time. It was an engaging way for me and folks like you to give to the Museum.

Help me reach my \$4,000 goal. Donate to my climb today!
