

Antoni Bulko's final project to earn the rank of Eagle Scout:

The construction of an outdoor, free-standing, self-service food pantry where anyone will be able to donate a nonperishable food item or take any food item(s) as needed. It will be open to the public 24/7. The pantry will be built on the church property, on the grass patch behind the sidewalk near the side entrance.

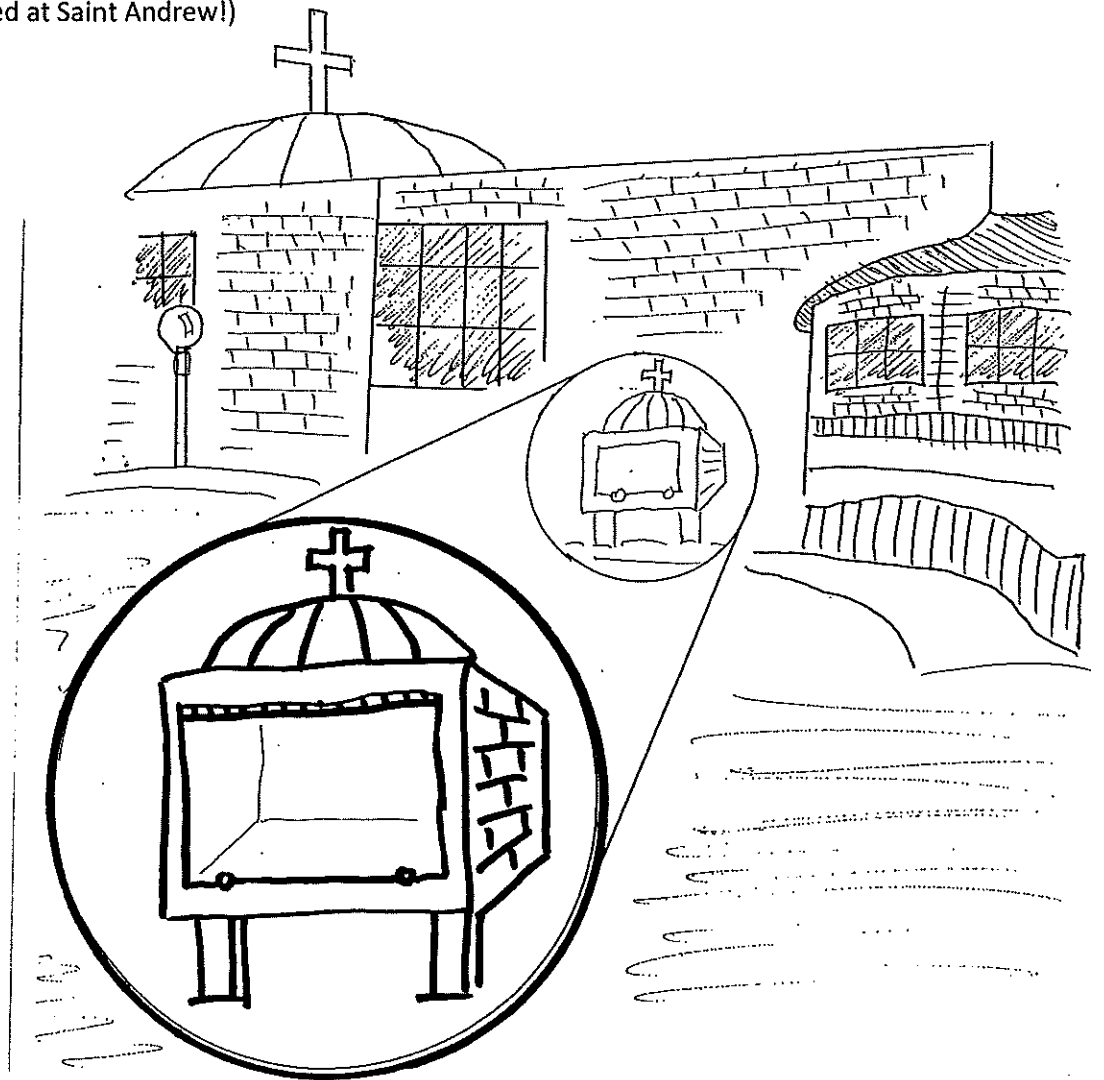

The pantry will have an internal capacity of approximately 15 cubic feet, a magnetic seal to ensure it is both weatherproof and tamperproof, and a clear acrylic door for easy viewing of the contents inside.

The sketch represents Antoni's vision of how the pantry will look upon completion. Anticipated project budget is \$500. Construction will be completed Spring 2022.

Please support Antoni's project and help him leave a legacy of service to the community on behalf of the church where he worshiped, served, and found fellowship all his life.

(Antoni was baptized at Saint Andrew!)

Thank you!

"For I was hungry and you gave me food." -Matthew 25:35-40
