

# IS IT THE FLU?

Look for the **F.A.C.T.S.**

Call your pediatrician  
right away  
if your child has  
these symptoms

— **F**EVER

— **A**CHES

— **C**HILLS

— **T**IREDNESS

— **S**UDDEN ONSET

## Treat the flu

- Prescription flu medicines can help stop the virus from spreading and shorten the time your child is sick
- Call your pediatrician right away if your child has these symptoms

## Help prevent the flu

- Get your child a flu shot
- Stop germs by having the whole family wash their hands often and cover their mouths when sneezing/coughing
- Ask your doctor about prescription flu medicines to help shorten the course of flu if your child has been exposed
