

# 50 Year Vision & Strategic Planning Leadership Committee Update

This week the 50-year strategic and planning leadership committee met and continued our preliminary work setting the two-year timeline and action plan. We have divided up the committee further into subcommittees to effectively work on various subtopics.

The committee will be looking for additional parishioners to volunteer on these subcommittees.

The committee's next step is to familiarize ourselves with all the historical work done by many past committees so we fully understand the historical research conducted on the three proposed options.
