

Bringing the Universe to HAA!

The SkyDome Planetarium brought an unforgettable in-school enrichment experience to HAA, giving students across all grade levels the opportunity to explore planets, constellations, space exploration, and the wonders of our universe. Bringing experiences like this directly to our students is one of the many ways learning extends beyond the traditional classroom.

Faith in the Life of Our School

In observance of the Exaltation of the Holy Cross, our students attended Divine Liturgy together, taking part in one of the beautiful traditions of our Orthodox faith. Moments like these connect our students to the faith, traditions, and values that have been at the heart of HAA for generations.

Chess Wizards Afterschool Club

Our popular Chess Wizards after-school program is back at HAA, giving students a fun and engaging way to strengthen critical thinking, problem-solving, strategy, and confidence. It's another opportunity for our students to learn, grow, and discover new interests beyond the school day. Open to Kindergarten - 5th grade.

Apple Picking at Parlee Farm

Our Preschool, Kindergarten, and Grades 1-3 students enjoyed a beautiful Fall field trip to Parlee Farms. From apple picking, visiting the farm animals to spending the day outdoors with classmates and teachers, experiences like these bring learning to life while creating lasting school memories.
