JOIN US AT *EMAGINE* ROCHESTER HILLS

We live in a media world. We, our children, and grandchildren speak the language of film and video. We are very blessed to be able to host these award winning films which speak to us and to our families about our ageless yet vibrant faith. We encourage you and all of your friends to make every effort to join us for the viewing of these films. If demand exceeds capacity at the theatre, we have the option to add additional days for viewing.

Both Trikirion Films and Beauty First Films are taking the lead in producing films of excellent quality and of the highest production values so that these films speak easily and effectively to our family, congregations and even neighbours and friends.
